you as statistical rules are compromised and the chances of missing quality issues are much greater than during single style sampling. We disclaim any liability to you if you make decisions concerning the acceptance, payment authorization, or shipment of the inspected goods based upon Combined Sampling.

During inspection, the color evaluation was performed by inspector in the inspection room under normal day light or other light sources specified by client. The evaluation & grading are preliminary based on factory lighting conditions at time of inspection. For accurate rating & results, color conformity should be performed by a qualified technician in a laboratory under a standard environment.
